## Website Revamp

We have recently updated our Autohaus One website with a fresh new look that's both smartphone and tablet friendly. You can check it out at [www.autohaus1.com.au](http://www.autohaus1.com.au)

If you have us stored in your favourites you may need to clear your cache, delete the old link and save the new.

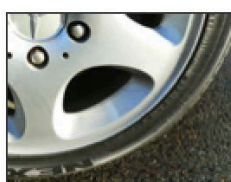

## ATE Brake Pad Update

ATE is now offering a **50,000km/3-year warranty** on their new ceramic brake pads when fitted together with new disc rotors.

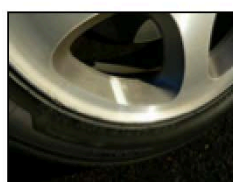

These brake pads are based on a high-tech compound which, compared to other brake pad compounds, produces almost no black wear dust. Alloy wheels stay cleaner and the life of the brake discs is extended.

Ask us about ATE ceramic brake pads at your next service (or sooner if you're tired of cleaning your alloy wheels).

We have been testing the new ceramic pads for more than 18 months with fantastic results. We drove an E320 with ceramic pads on one side and standard pads on the other, to gauge the difference in brake dust under the same braking conditions. The results can be seen below.

**Ceramic Pads**

**Standard Pads**

## Featured Used Car

### MY2002 C180 Kompressor Coupé

Travelled 122,900km  
Factory alloys

This one-owner vehicle is in great condition. Plus, we're offering a \$1000 price reduction for eNews readers.

Now only \$11,990.00

## Delaying Servicing?

When difficult economic times hit, we find that some people tend to delay servicing their car. This in our opinion is a false economy. Take the following example ..

### Regular Servicing

The cost of minor services on a 2001 C180 sedan over three years is approx \$1400.00.

### Repair Bill

The cost of repairing a damaged engine due to sludge build up and consequent engine failure is more than \$6000.00.

Even if you're on a tight budget, regular simple minor servicing can save you thousands.

## Prestige Used Cars

At Autohaus One we offer excellent deals on prestige used cars. And, all our pre-loved vehicles receive a thorough inspection and service from our trusted technicians.

See our [website](#) to view all the quality used cars currently available.

### Thinking of selling?

We have an ever-increasing database of people looking for a certain car. If you're thinking of selling, give us a call. We may have a client looking for a car like yours.
