## Free Safety Check in December

### Checked under your bonnet lately?

If you are heading off on a car trip this holiday season, it's essential that you get under the bonnet to check all the fluid levels before you leave. You should also check tyre pressures and tread depth. If you don't feel confident doing this yourself, book in for a **free safety check** in December and we can do all the checks while you wait.

## Tips + News

### Driver Reviver

Stay fresh and focused on long drives with stops at least every 2 hours. A stop means actually getting out of the car and walking around and maybe having some light refreshments.

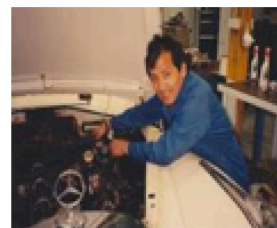

During the holidays there are 220 Driver Reviver stops around Australia, where you can get a cuppa and a biscuit and use the toilet facilities. Visit the [Driver Reviver website](#) to find the locations.

## Staff News

### Farewell Manuel

Last Thursday was a sad day at Autohaus One with the retiring of our long-standing employee Manuel Huanuco.

Manuel first started with us in 1979, left for a short while and returned in 1986. We wish him well for the future and thank him for his outstanding service.
